

Drumsallen Primary School

E-Safety Policy And Acceptable Use Agreement

May 2016

ICT

The term, Information and Communications Technology (ICT) covers a range of resources from traditional computer-based technologies to the fast evolving digital communication technologies.

Some of the Internet-based and electronic communications technologies which children are using, both inside and outside of the classroom, are:

- Websites
- Learning Platforms / Virtual Learning Environments
- Email and Instant Messaging
- Social Networking
- Blogs and Wikis
- Podcasting
- Video Broadcasting - Skype/Facetime
- Music Downloading
- Gaming
- Mobile/Smart phones with text, video and/or web functionality
- iPads and other tablet devices with internet access

While these ICT resources can be exciting and beneficial both in and out of the context of education, all users need to be aware of the range of risks associated with their use.

E Safety

E-safety encompasses internet technologies and electronic communications via mobile phones, games consoles and wireless technology. It highlights the need to educate children and young people about the benefits, risks and responsibilities of using information technology.

- E-Safety concerns safeguarding children and young people in the digital world.
- E- Safety emphasises learning to understand and use new technologies in a positive way.
- E-Safety is less about restriction and more on education about the risks as well as the benefits so pupils can feel confident online.
- E-Safety is concerned with supporting children and young people to develop safer online behaviours both in and out of school.

In Drumsallen Primary School we understand our responsibility to educate pupils in e-Safety. We aim to teach children appropriate behaviours and critical thinking to enable them to remain both safe and legal when using the internet and related technologies, in and beyond the context of the classroom.

Risks and Responses

The Internet is an exciting resource. It brings the world into the classroom by giving children access to a global network of educational resources. There is no doubt that the use of the Internet is an essential skill for children as they grow up in the modern world. The Internet is, however, an open communications' channel, available to all. Anyone can send messages, discuss ideas and publish materials with little restriction. This brings young people into contact with people from all sectors of society and with a wide variety of materials some of which could be unsuitable. Key Concerns are:

Potential Contact

Children may come into contact with someone on-line who may wish to harm them. Some adults use social networks, chat rooms or e-mail to communicate with children for inappropriate reasons

In our school children will be taught:

- That people are not always who they say they are.
- That "Stranger Danger" applies to the people they encounter through the Internet.
- That they should never give out personal details
- That they should never meet alone anyone contacted via the Internet, and
- That once they publish information (e.g. send inappropriate photographs) it can be disseminated with ease and cannot be destroyed.

Inappropriate Content

Through the Internet there are unsuitable materials in many varieties. Anyone can post material on the Internet.

Some material is published for an adult audience and is unsuitable for children e.g. materials with a sexual content.

Materials may express extreme views. E.g. some use the web to publish information on weapons, crime and racism which would be restricted elsewhere.

Materials may contain misleading and inaccurate information. E.g. some use the web to promote activities which are harmful such as anorexia or bulimia.

In our school children will be taught:-

- That information on the Internet is not always accurate or true.
- To question the source of information.
- How to respond to unsuitable materials or requests and that they should tell a teacher/adult immediately.

Cyber Bullying

We are very aware of the potential for pupils to be subjected to cyber bullying via e.g. email, text or social networking sites. If it takes place within school, cyberbullying will be dealt with in line with the school's overall anti-bullying policy, discipline policy and pastoral services.

In our school children will be taught:

- If they feel they are being bullied by e-mail, through social networking sites, text or online they should always tell someone they trust.
- Not to reply to bullying, threatening text messages or e-mails as this could make things worse.
- Not to send or forward abusive texts or e-mails or images to anyone.
- Keep abusive messages as evidence.

Children will be encouraged to report incidents of cyber-bullying to parents and the school to ensure appropriate action is taken.

Children will be encouraged to use websites such as www.thinkuknow.co.uk to learn how to deal with cyberbullying incidents which may take place in or outside of school

We will keep records of cyber-bullying incidents, if they have occurred within school, to monitor the effectiveness of preventative activities, and to review and ensure consistency in investigations, support and sanctions.

Roles and Responsibilities

As e-Safety is an important aspect of strategic leadership within the school, the Principal and Board of Governors have ultimate responsibility to ensure that the policy and practices are embedded and monitored. It is the role of the ICT Co-ordinator to keep abreast of current e-safety issues and guidance through organisations such as CEOP (Child Exploitation and Online Protection) and Childnet. Mrs Kelly has responsibility for leading and monitoring the implementation of e-safety throughout the school.

The Principal/ICT Co-ordinator update Governors with regard to e-safety and all governors have an understanding of the issues at our school in relation to local and national guidelines and advice.

Writing and Reviewing the e-Safety Policy

This policy, supported by the school's Acceptable Use Agreement for staff, governors, visitors and pupils, is to protect the interests and safety of the whole school community. It is linked to other school policies including those for ICT, Behaviour, Health and Safety, Child Protection, and Anti-bullying.

It has been agreed by the Staff and approved by the Governing Body. The e-Safety Policy and its implementation will be reviewed annually.

E-Safety Skills' Development for Staff

- All staff receive regular information and training on e-Safety issues through the co-ordinator at staff meetings.
- All staff have been made aware of individual responsibilities relating to the safeguarding of children within the context of e-Safety and know what to do in the event of misuse of technology by any member of the school community.
- New staff members receive information on the school's e-Safety Policy and Acceptable Use Agreement as part of their induction.
- All teachers are encouraged to incorporate e-Safety activities and awareness within their lessons.

E-Safety Information for Parents/Carers

Parents/carers have an important role to play in promoting e-Safety. We encourage all parents/carers to become involved in e-Safety discussions and activities with their child.

- Parents/carers are asked to read through and sign the Acceptable Use Agreement with their child.
- Parents/carers are required to give written consent to images of their child being taken/used on the school website.
- The school website contains links to sites such as CEOP's thinkuknow, Childline, and the CBBC Web Stay Safe page which parents can use with their children
- The school communicates relevant e-Safety information through parents' evenings/newsletters and the school website.

Parents are reminded regularly that it is important to promote e-Safety in the home and to monitor Internet use. The following guidelines are provided:

- Keep the computer in a communal area of the home.
- Be aware that children have access to the internet via gaming stations and portable technologies such as smart phones.
- Monitor on-line time and be aware of excessive hours spent on the Internet.
- Take an interest in what children are doing. Discuss with the children what they are seeing and using on the Internet.
- Advise children to take care and to use the Internet in a sensible and responsible manner. Know the SMART tips.
- Discuss the fact that there are websites/social networking activities which are unsuitable.
- Discuss how children should respond to unsuitable materials or requests.
- Remind children never to give out personal information online.
- Remind children that people on line may not be who they say they are.
- Be vigilant. Ensure that children do not arrange to meet someone they meet on line.
- Be aware that children may be using the Internet in places other than in their own home or at school and that this internet use may not be filtered or supervised.

Teaching and Learning

Internet use:

- Teachers will plan for and provide opportunities across the curriculum for children to develop their e-Safety skills.
- Educating children on the dangers of technologies that may be encountered outside school is done informally, when opportunities arise, and as part of the e-Safety curriculum.
- Children are made aware of the impact of online bullying and know how to seek help if these issues affect them. Children are also made aware of where to seek advice or help if they experience problems when using the Internet and related technologies; i.e. parent/carer, teacher/trusted member of staff, or an organisation such as Childline/CEOP.
- The school Internet access is filtered through the C2k managed service using a Websense filtering solution.
- Websense assesses all websites based on their content and adds them to a category. (Green – available, Red – unavailable) All users are given access to a core group of green sites. The school has the facility to customise security options where need arises. Access to the most inappropriate sites, including those on the Internet Watch Foundation banned list will always remain blocked.
- No filtering service is 100% effective, therefore all children's use of the Internet is supervised by an adult.
- Use of the Internet is a planned activity. Aimless surfing is not encouraged. Children are taught to use the Internet in response to a need e.g. a question which has arisen from work in class.
- Children are taught what Internet use is acceptable and what is not and given clear objectives for Internet use.
- Children are educated in the effective use of the Internet in research, including the skills of knowledge location, retrieval and evaluation.
- The school will ensure that the use of Internet derived materials by staff and pupils complies with copyright law.
- Children are taught to be Internet Wise. Children are made aware of Internet Safety Rules and are encouraged to discuss how to cope if they come across inappropriate material. They will be taught to be "Click Clever, Click Safe":

Zip it (never give personal data over the internet)

Block it (block people you don't know)

Flag it (if you see something you don't like flag it up with someone you trust).

E-mail:

- Pupils may only use C2k e-mail accounts on the school system.
- Pupils must immediately tell a teacher if they receive offensive e-mail.
- Pupils must not reveal personal details of themselves or others in e-mail communication, or arrange to meet anyone without specific permission.
- Forwarding chain letters is forbidden.
- Sending or displaying insulting or offensive messages/pictures is forbidden.
- Using obscene language is forbidden

Social Networking:

- Through the C2k system our school currently blocks access to social networking sites.
- Pupils and parents will be advised that the use of social network spaces outside school is inappropriate for primary aged pupils. However, we accept that some pupils will still use them; they will be advised never to give out personal details of any kind, which may identify them or their location.
- Pupils are advised to set and maintain profiles on such sites to maximum privacy and deny access to unknown individuals.
- Our pupils are asked to report any incidents of bullying to the school.
- School staff will not add children as 'friends' if they use these sites.

Portable Technologies:

- The use of portable devices such as memory sticks and external hard drives will be monitored closely as potential sources of computer virus and inappropriate material.
- Staff should not store pupils' personal data and photographs on memory sticks.
- Pupils are not allowed to use personal mobile phones or media devices in school.
- Staff should not use personal mobile phones during designated teaching sessions.

iPads

iPads are used for digital storytelling, internet research, and to support learning and teaching across the curriculum via the use of a range of appropriate apps. When using iPads, children will be reminded to be Internet Wise and apply the Internet safety rules. They will not be allowed to use iPads to:

- Take photos of pupils/staff without permission or direction from the teacher.
- Take videos of pupils/staff without permission or direction from the teacher.

Managing Video-conferencing:

- Videoconferencing will be via the C2k network to ensure quality of service and security.
- Videoconferencing will be appropriately supervised.

Publishing Pupils' Images and Work

- Written permission from parents or carers will be obtained before photographs of pupils are published on the school Website. This consent form is considered valid for the entire period that the child attends this school unless there is a change in the child's circumstances where consent could be an issue.
- Parents/carers may withdraw permission, in writing, at any time.
- Photographs that include pupils will be selected carefully and **will not** enable individual pupils to be clearly identified.
- Pupils' full names will not be used anywhere on the School Website, particularly in association with photographs.
- Pupil's work can only be published by outside agencies with the permission of the pupil and parents.

Policy Decisions:

Authorising Internet access

- Pupil instruction in responsible and safe use should precede any Internet access and all children must sign up to the Acceptable Use Agreement for pupils and abide by the school's e-Safety rules. These e-Safety rules will also be displayed clearly in all rooms.
- Access to the Internet will be supervised..
- All parents/guardians will be asked to sign the Acceptable Use Agreement for pupils giving consent for their child to use the Internet in school by following the school's e-Safety rules and within the constraints detailed in the school's e-Safety policy.
- All staff must read and agree in writing to adhere to the Acceptable Use Agreement for Staff before using any school ICT resource.

Password Security:

- Adult users are provided with an individual login username and password, which they are encouraged to change periodically. Login details should not be shared with pupils.
- All pupils are provided with an individual login username and password.
- They are encouraged to keep details of usernames and passwords private.
- Pupils are not allowed to deliberately access files on the school network which belong to their peers, teachers or others.
- Staff are aware of their individual responsibilities to protect the security and confidentiality of the school network, MIS systems.

Handling e-Safety Complaints:

- Complaints of Internet misuse will be dealt with by a senior member of staff.
- Deliberate access to inappropriate materials by any user will lead to the incident being logged by the ICT Co-ordinator and recorded in the e-Safety incident logbook.
- As part of the Acceptable Use Agreement children will know that if they deliberately break the rules they could be stopped from using the Internet/E-mail and that parents/carers will be informed.
- Complaints of a child protection nature will be dealt with in accordance with school child protection procedures.
- Complaints regarding cyberbullying will be dealt with in line with the school Anti-Bullying Policy.
- Pupils and parents will be informed of the complaints' procedure.
- Any complaint about staff misuse must be referred to the Principal.

Communicating the Policy:

Introducing the e-Safety Policy to pupils

- e-Safety rules will be displayed in all classrooms and discussed with the pupils at the start of each year. Specific lessons will be taught by class teachers at the beginning of every year and at relevant points throughout e.g. during PDMU lessons/circle times/anti-bullying week.
- Pupils will be informed that network and Internet use will be monitored.

Staff and the e-Safety Policy:

- All staff will be involved in discussions regarding e-Safety and will have a copy of the e-Safety Policy.
- Staff will be aware that Internet use can be monitored and traced to the individual. Professional conduct is essential.
- A laptop/iPad issued to a member of staff remains the property of the school. Users of such equipment should therefore adhere to school policy regarding appropriate use with regard to Internet access, data protection and use of software, both in and out of school.

Staff should follow the guidelines below:

- Never communicate with pupils outside of school via social networking sites and chat rooms.
- Never respond to informal, social texts from pupils
- Never use personal technology to take images or videos of children

Monitoring and review:

This policy is implemented on a day-to-day basis by all school staff and is monitored by the ICT Co-ordinator.

This policy is the governors' responsibility and they will review its effectiveness annually. They will do this through liaison with the ICT Co-ordinator and the Designated Child Protection Co-ordinator.

Safety Rules for Children

Follow These SMART TIPS

S **Secret** - Always keep your name, address, mobile phone number and password private – it's like giving out the keys to your home!

M **Meeting** someone you have contacted in cyberspace can be dangerous. Only do so with your parent's/carer's permission, and then when they can be present.

A **Accepting** e-mails or opening files from people you don't really know or trust can get you into trouble – they may contain viruses or nasty messages.

R **Remember** someone on-line may be lying and not be who they say they are. Stick to the public areas in chat rooms and if you feel uncomfortable simply get out of there!

T **Tell** your parent or carer if someone or something makes you feel uncomfortable or worried.

SMART Tips from: – Helping your parents be cool about the Internet, produced by: Northern Area Child Protection Committee

DRUMSALLEN PRIMARY SCHOOL
ACCEPTABLE USE AGREEMENT: PUPILS

- ✓ I will only use ICT in school for school purposes.
- ✓ I will only use my class email address or my own school email address when emailing.
- ✓ I will only open email attachments from people I know, or who my teacher has approved.
- ✓ I will only open/delete my own files.
- ✓ I will make sure that all ICT contact with other children and adults is responsible, polite and sensible.
- ✓ I will not deliberately look for, save or send anything that could be unpleasant or nasty. If I accidentally find anything like this I will tell my teacher immediately.
- ✓ I will not give out my own details such as my name, phone number or home address. I will not arrange to meet someone unless this is part of a school project approved by my teacher and a responsible adult comes with me.
- ✓ I will be responsible for my behaviour when using ICT because I know that these rules are to keep me safe.
- ✓ I know that my use of ICT can be checked and that my parent/ carer contacted if a member of school staff is concerned about my eSafety.

ACCESS TO THE INTERNET (PUPILS)

Parents' Internet Information Letter

Dear Parent/ Carer,

ICT including the internet, email and mobile technologies, etc has become an important part of learning in our school. We expect all children to be safe and responsible when using any ICT.

Please read and discuss these eSafety rules with your child and return the slip at the bottom of this page and return it to school promptly. If you have any concerns or would like some explanation please contact the Principal or class teacher.

Yours faithfully

J Kelly (Mrs)

Principal

Drumsallen Primary School Acceptable Use Agreement: Pupils

Parent/ carer signature

We have discussed this and(child's name) agrees to follow the eSafety rules and to support the safe use of ICT at Drumsallen Primary School.

Parent/ Carer Signature

Child's Signature.....

Class Date

**ACCEPTABLE USE AGREEMENT: STAFF,
GOVERNORS AND VISITORS**

ICT and the related technologies such as email, the internet and mobile devices are an expected part of our daily working life in school. This policy is designed to ensure that all members of staff are aware of their professional responsibilities when using any form of ICT. All members of staff are expected to sign this policy and adhere at all times to its contents. Any concerns or clarification should be discussed with Mrs J Kelly, school ICT/ eSafety coordinator.

- I will only use the school’s email / Internet / Intranet / Learning Platform and any related technologies for professional purposes or for uses deemed ‘reasonable’ by the Principal or Governing Body.
- I will comply with the ICT system security and not disclose any passwords provided to me by the school or other related authorities.
- I will ensure that all electronic communications with pupils and staff are compatible with my professional role.
- I will not give out my own personal details, such as mobile phone number and personal email address, to pupils.
- I will not send or accept friend requests on social media sites to or from pupils or parents.
- I will only use the approved, secure email system(s) for any school business.
- I will ensure that personal data (such as data held on SIMS) is kept secure and is used appropriately, whether in school, taken off the school premises or accessed remotely. Personal data can only be taken out of school or accessed remotely when authorised by the Principal or Governing Body.
- I will not browse, download, upload or distribute any material that could be considered offensive, illegal or discriminatory.
- Images of pupils and/ or staff will only be taken, stored and used for professional purposes in line with school policy and with written consent of the parent, carer or staff member. Images will not be distributed outside the school network without the permission of the parent/ carer, member of staff or Principal.
- I understand that all my use of the Internet and other related technologies can be monitored and logged and can be made available, on request, to the Principal.
- I will respect copyright and intellectual property rights.
- I will ensure that my online activity, both in school and outside school, will not bring my professional role into disrepute.
- I will support and promote the school’s e-Safety policy and help pupils to be safe and responsible in their use of ICT and related technologies.

User Signature

I agree to follow this code of conduct and to support the safe use of ICT throughout the school
